Pine Mountain Lake

Mountain Views and Shade Trees combine on this .83 acre lot for pleasant enjoyment on over 1000 square feet of low-maintenance elastomeric deck. Also low maintenance and fire resistant is the fiber-cement siding. Living room features a vaulted ceiling, propane fireplace in oak hearth, half round windows, silhouette shades, and a surround-sound system. For entertaining you have 3 indoor eating areas: the Corian breakfast bar, a formal dining room, and a casual dining room. Lots of storage in pantry, long tiled buffet, glass front cabinets, and pull-out drawers. More: septic system (no sewer bills!), tankless hot water heater, retractable awning on deck to extend shaded area, wood blinds, garden storage building, garage cabinets + workbench.

Fabulous Floor Plan

The ideal design gives you flow and openness, but still provides privacy where you need it; this house achieves that beautifully. The 24 x 35 foot garage is attached to the main level by a breezeway. The oversized master suite with office area, walk-in closet, and private deck is at one end, and the spacious "no-stair" entry, living, dining, and breakfast area open with two doors onto the partly covered wraparound deck. Downstairs is perfect for guests or kids, with high 9 foot+ ceilings and it includes a bonus room and large storage area. A whole-house intercom and radio system bring music into every room and outdoors. Built in 2002.
